**Paragraph 1 – MatiCard installation ..... 4**

**Paragraph 2 – MatiCard configuration for Z3i ..... 7**

### Paragraph 1 – MatiCard installation

Before installing Z3i you must install the MatiCard software.  
Go to the Matica User CD start page and click **Install MatiCard Graphic**.

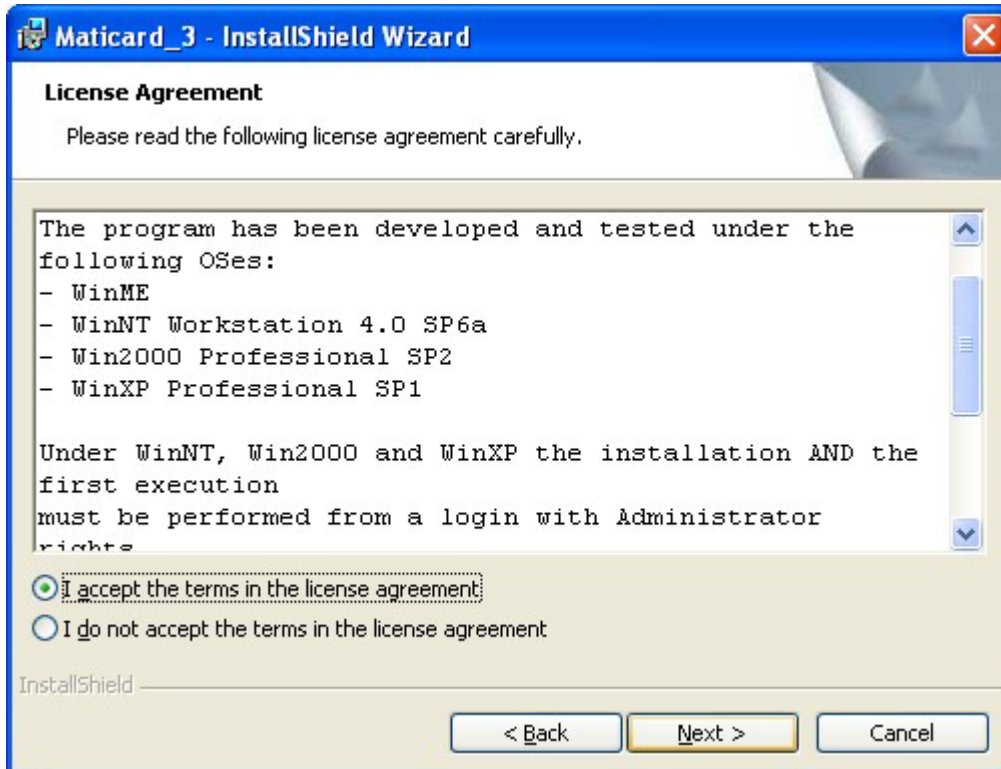

In the MatiCard InstallShield Wizard window, click **Next**.

In the following wizard windows confirm the installation, accept the license terms and choose the installation folder, always clicking **Next**.

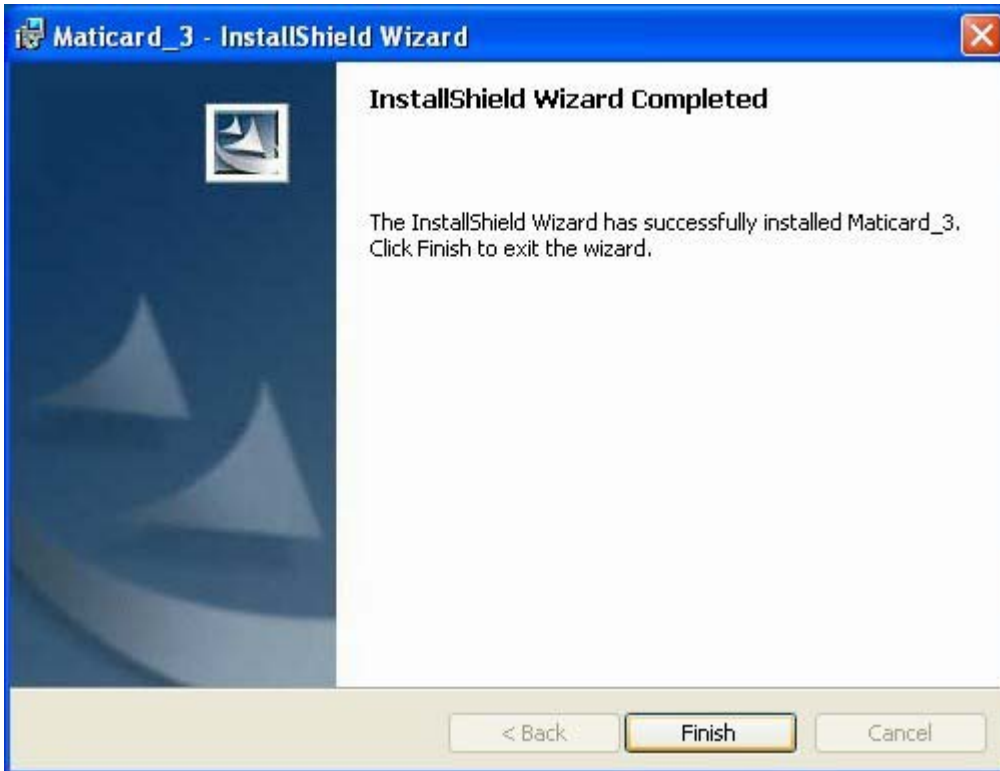

**Note:** in the license terms window are specified the operative systems required by the MatiCard software.

In the following wizard window click **Install** to start the installation.

When the Pc has completed the installation, click **Finish**.

On the PC desktop, double click the MatiCard icon.

In the MatiCard reboot warning window, click **OK**.

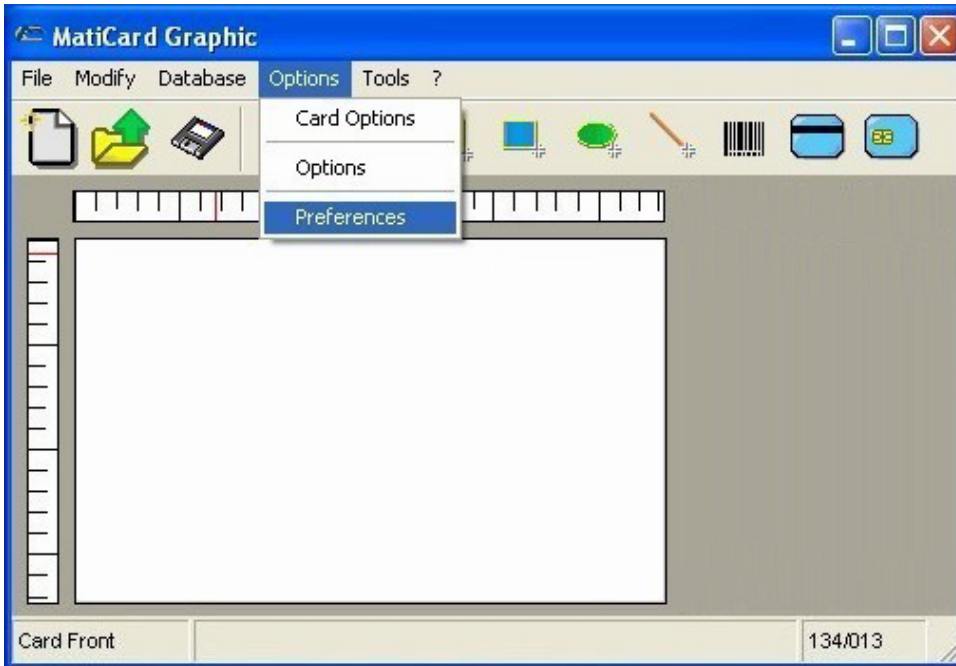

Restart the PC.

## Paragraph 2 – Maticard configuration for Z3i

To install the Z3i connect the serial cable and the power supply, then switch on the machine.

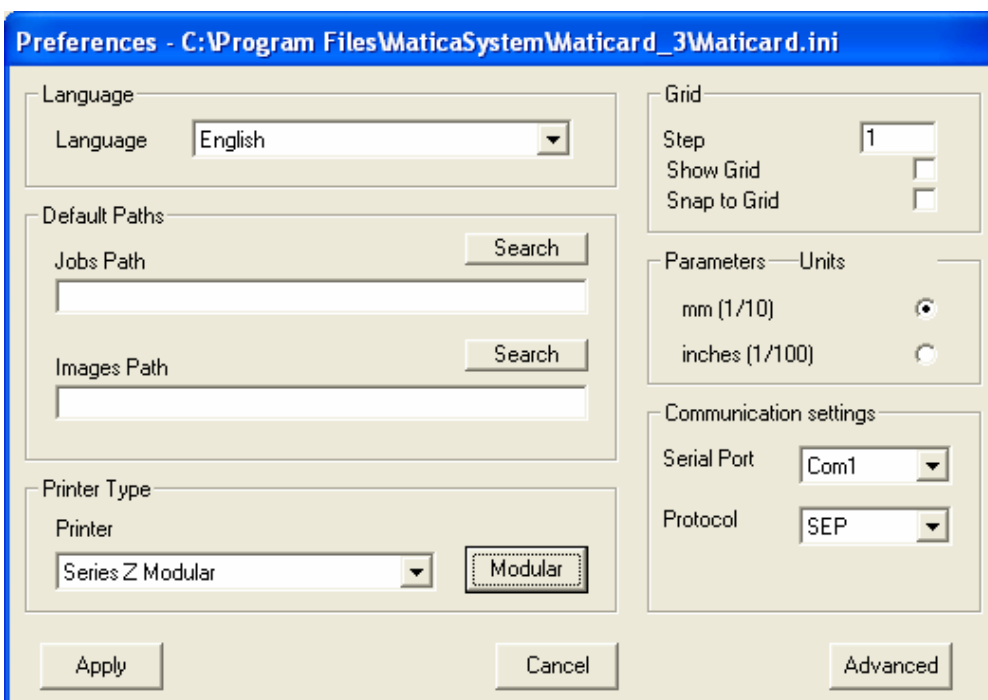

On the PC desktop, double click the Maticard icon.

In the Maticard Graphic window click **Preferences** from the **Options** menu.

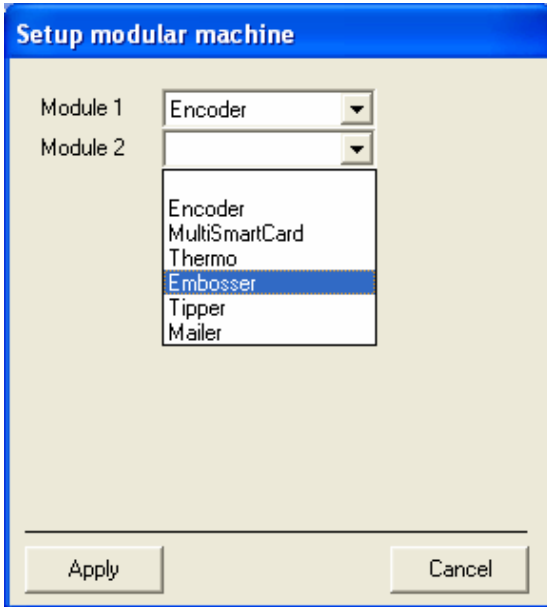

In the Preferences window, select the Series Z Modular option in the **Printer Type** box and then select the Serial Port used in the **Communication settings** box.

To perform the modules configuration click **Modular** in the Printer Type box.

To configure the Z3i modules in the **Setup modular machine** window, select the **Encoder** as Module 1 from the related combo box list, then select the **Emboss** as Module 2 in the underneath combo box list, and finally select the **Tipper** as Module 3 in the last combo box list.

To save the machine configuration click **Apply**.
